Designed for the designers

Innov-is F540E & F580

Turn heads with the sleek and stylish Innov-is F540E and F580

Whether you've been sewing for a while, or are just starting out, the advanced needle threader, drop-in bobbin and easy to thread system make these machines so simple to use.

See your style come alive on the colour LCD screen and make your unique mark with brand new embroidery patterns. Unlock the artist within with early bird access to Brother's new Artspira app and wireless connection.

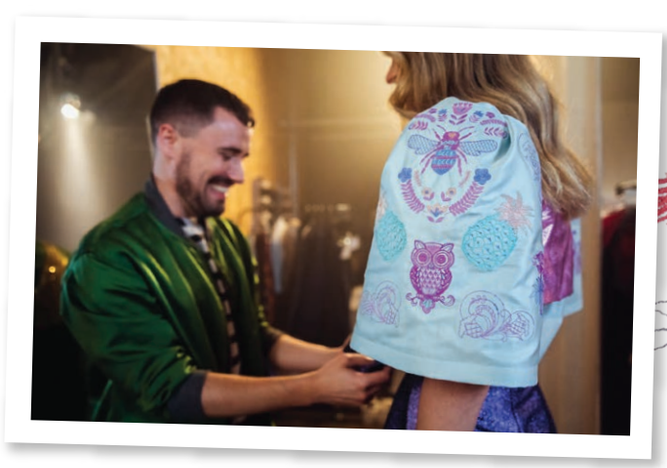
9. Embroidery unit **10.** Embroidery presser foot **11.** Needle threader lever

Wireless connectivity for design transfers and Artspira app connection

Eye-catching built-in embroidery designs

On-screen editing capabilities



Set your makes on fire

With the Innov-is F540E and F580's 193 eye-catching embroidery designs.

Words come easily when you have 13 embroidery fonts at your fingertips. And even easier when you combine them with the on-screen editing function. Use the clear, colour LCD touch screen to flip, rotate, change the colour and repeat designs and text.

Time is money, darling, so use the colour sorting function for increased efficiency and fewer thread changes. With the programmable jump stitch trimmer, you'll save time, plus you'll save on cleaning up too!

With these machines nothing can limit your design potential. With wireless capability you can easily transfer new embroidery data to your machine with the free Design Database Transfer program (Windows only). Why not draw your own using our Artspira app, or work your design magic using our PE-Design 11 software (extra purchase required).

Protect precious fabrics and make hooping a cinch with the optional 180 x 100 mm magnet frame (additional purchase necessary).

Innov-is F580

Additional Features

- 241 sewing stitches, including 10 buttonholes, plus 5 fonts
- 190mm Workspace
- Sideways feeding sewing and SFDS
- Automatic upper thread tension
- Auto thread cutter
- My Custom Stitch™
- Hard case

Innov-is

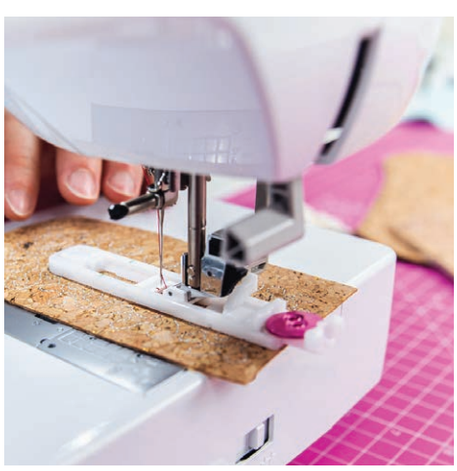
F580

All the features of Innov-is F540E plus:

1. Automatic upper thread tension **2.** 190mm Workspace **3.** Auto thread cutter
4. 241 sewing stitches, including 10 buttonholes, plus 5 fonts **5.** My Custom Stitch™
6. Hard case **7.** Sideways feeding sewing and SFDS

Variety of decorative stitches built-in

Free arm sewing for small areas



One-step buttonhole sewing

Sew sophistication

The Innov-is F580 has 241 utility and decorative stitches, including 10 one-step buttonholes, plus 5 lettering fonts.

Expand your portfolio even further with My Custom Stitch™. Design your own decorative stitches directly into your machine using the colour LCD screen. Save them to use across a whole range of makes. With four-way side feeding, decorative stitches are precise and crisp.

Professional finishes come as standard with Brother's innovative Square Feed Drive System (SFDS), giving you superior quality, strong stitching on any fabric. Adjustable foot pressure helps you sew pucker-free seams on even the most stretchy of fabrics. Now there's no need to avoid 'difficult' materials.

With a central panel including slide speed control, lockstitch, speed up/down button, thread cutter and start/stop button, precision control comes as a standard.

We've built the Innov-is F580 to be a strong and reliable quilting partner

Stitch beauty into everything you make with the built-in quiltbroidery patterns.

With a superior stitch quality and auto thread tension you won't need to worry about the durability or look of your stitches.

The included walking foot means you'll tackle multi-layer quilts with ease, no matter what combinations of materials you use to make them.

Get the straightest of stitches and sharpest of corners, placed in exactly the right places, with the included quilting guide and quarter inch foot. For extra control, use the knee lift.

The optional wide table (additional purchase necessary), combined with the 7.4" (190 mm) working space, makes large projects a breeze.
